

**COVID-19 Vaccination Consent Form Update**

To our partnering facilities in the CVS Health/Omnicare COVID-19 Vaccine Clinic Program –

With ongoing input and additional clinical data from the CDC and vaccine manufacturers Pfizer and Moderna, we are updating our COVID-19 Vaccine Consent Forms.

Changes you may notice include:

- Updated Screening Questions
- Addition of Insurance Information fields

All four versions of the COVID-19 Vaccine Consent Form outlined below are **approved** and can be utilized during clinics. Additionally, to make it easier for facilities to print forms, we have created an 8.5" x 11" electronic version that can be [downloaded](#) and printed.

**\*PREFERRED (Delivered)**

8.5x14 Triplicate Form Version One (ORIGINAL)	8.5x14 Triplicate Form Version Two (NEW)	8.5x14 Self-print Form Version One (ORIGINAL)	8.5x11 Self-print Form Version Two (NEW)

**WHAT THIS MEANS TO YOU:**

- If you have already received Consent Forms and started the process, **don't worry**. Those consent forms are still valid and will be accepted at your onsite clinic.
- If you have not yet received your consent forms, use the version you receive from us. For clinics occurring in December and early January, this will most likely be the original version. For clinics from mid-January on, this will probably be the updated version. Again, do not worry, regardless of the version, if you utilize the Consent Forms that are shipped to you, they will be accepted at your onsite clinic.
- One final possibility is that you receive the original version for your first onsite clinic, but the update version for your second or third onsite clinic. Again, if you are utilizing the Consent Forms that we have provided, all will be accepted at your onsite clinic.
- If you have already had your first onsite clinic, continue to use the forms we have provided for clinics two and three.
- If you have not yet had your onsite clinic scheduled, you will notice no difference and will utilize the updated forms we provide.

## Common FAQs

If I have already received a shipment of consent forms, are they approved for use?

- Yes. Regardless of the version, if you receive a shipment of forms from us they are approved for utilization.

If I receive a shipment of Version One, should I request a shipment of Version Two?

- No. If you receive a shipment of Version One forms please go ahead and utilize them and any save additional forms for future clinics.

What if I receive different versions of the form for clinic one (1) compared to clinic two (2)?

- Regardless of the version, if you utilize the Consent Forms that are shipped to you, they will be accepted at your onsite clinic.

What if I received the old version of the form for clinic one (1) and clinic two (2)?

- If the form reads “COVID Vaccine Intake Consent Form” it is approved for utilization and you do not need to be concerned.

What if I have already started the consent process utilizing Version One?

- If you have received Version One for your clinic, they are approved and will be accepted. If you don't yet have forms, you will most likely receive Version Two going forward.

What if I have self-printed Version One of the form and already have them filled out?

- If you have already filled out the self-printed form Version One for your clinic they are approved and will be accepted. If you have not already filled out the self-printed form Version One we suggest you download the self-printed form Version Two and utilize it. The self-print form Version Two is in an 8.5x11 inch format and may be easier to print, read, and fill out.

What are the variations between the different versions of the form?

There are several variations between the two forms including:

- Updated screening questions, streamlined in alignment with manufacturer guidelines
- Addition of Insurance Information fields

When can I expect my forms?

- We are shipping out Consent Forms as clinics are being scheduled. *Most* clinics through December will receive Version One. *Most* clinics from January on will receive Version Two. Again, both versions are acceptable, and you should use whichever version you receive from us.

What if I do not receive my forms 5-10 days before my clinic?

- You can email [CovidVaccineClinicsLTcf@CVSHealth.com](mailto:CovidVaccineClinicsLTcf@CVSHealth.com) with your primary contact, facility name, address, number of forms requested and clinics date. If necessary, you can also [download](#) the self-print version of the form and utilize it.

Where can I find the updated self-print form (Version 2) for downloading online?

- On the Omnicare.com COVID Resources page.  
[COVID-19 Vaccine Self-print Full Intake Consent Form \(electronic\)](#)

I have additional question about Consent – are there additional resources available to me?

- Yes. You can find additional resources on conducting the Consent Process here:
- [Omnicare.com/COVID-19-Vaccine-Resource](#)
- [COVID-19 Vaccine Consent Process](#)
- [COVID-19 Vaccination FAQs](#)
