

Thank you for choosing CVS Health[®] as your facility's COVID-19 vaccine provider*.

Actions Needed

- * Download COVID-19 Vaccine Clinic Guide
- * Update contact information
- * Save the date for COVID-19 Vaccine Clinic Process Webinar

Download your COVID-19 Vaccine Clinic Guide

This guide details every step in the process, so your patients and staff are prepared for the upcoming CVS Health COVID-19 vaccine clinic. [Download Now](#)

Let us get to know you better

In order for us to better serve your facility, please let us know your up-to-date facility contact information. [Update Contact Information](#)

As soon as the vaccine is ready, we will send additional communications. This will include scheduling of your clinic as well as additional important information to help you prepare for your clinic.

We have the national infrastructure and experience to help protect your facility from COVID-19.

- Automatic enrollment in our vaccine scheduling tool
- CVS Health has conducted millions of COVID-19 tests since March (70% of all retail testing nationwide)
- Extensive vaccination experience with 20 million shots on track to be administered this season**

Omnicare COVID-19 Vaccine Clinic Process Webinar 12/7, 2pm - 3pm EDT

Note: We will send a separate communication with registration/login details prior to the webinar

If you are unable to attend, we will also be sending a recording of the webinar at a later date.

Topics covered:

Review of Onsite Vaccine Clinic Process
Key communications throughout the clinic process
Guidance from key partners, including: CDC and AHCA
Important action items for your facility
Review of common FAQ's, timelines, and available support resources
Q&A session
